25X1

- 1. In Fueretenberg/Oder are two shippards on the German section of the Oder River. These shippards are called Werft²I and Werft II. Werft I is located about 300 neters from the locks at Fueretenberg/Oder in the direction of the Oder River. Werft I is further bounded by Gubener Strasse in Firstenberg/Oder. Werft I is a VEB which repairs barges of the DSU (Deutsche Schiffahrtsbut 18 subcrdimate to the Secretariat for Shipping. Werft I has four building ways, each 30 meters long and 8 meters wide. This shippard is
- 2. Werft II is located about 300 to 400 yards from Werft I in the direction of the Oder River. Werft II has six building ways which are 30 meters long and 8 meters wide. Fishing hours and other light craft are built at Werft II. The craft built at Werft II are generally 25 meters long and
- 3. The DSU has its own docks at Zehdenick and Waltersdorf. These docks are used for minor repairs on DSE barges. No repairs are made on DOSI barges in Zehdenick or Waltersdorf.
